

## \*\*\* NEW \*\*\* Full colour digital printing

All our stationery designs can be printed digitally, and although this reduces the cost by up to 50% the quality remains superb. Be aware that although metallic colours and thermography cannot be produced like this, full colour can. This allows photographs, paintings and other multiple colour images to be added.

Digital printing can be combined with thermography if required, in which case the traditional printing cost increases by 30%

### ENVELOPES per 20

C6 (To fit A6) :
